ABOUT ME

I am a motivated student with a strong interest in technology and problem-solving. I enjoy learning new concepts and continuously working on improving my technical skills. I am eager to apply my knowledge in practical environments and grow through new challenges.

EDUCATION

2024-Present

Bachelor of Technology (B.Tech) in Artificial Intelligence.
G.H. Rasoni College of Engineering & Management, Nagpur.
Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU).

2021-2024

Diploma in Information Technology,
Vivekanand Polytechnic, Sitasongi,

PROJECT

Color Prediction Web App

Created a color prediction web app to improve understanding of logic building, user interaction, and web application development

Daily Horoscope Web App

Designed and developed a daily horoscope web app that allows users to view daily predictions for all zodiac signs. The project focuses on simplicity, responsiveness, and smooth user experience.

Virtual Drum

Developed a virtual drum system using a camera where drum components like bass and kick are displayed on screen. The application detects a stick or pen through the camera and plays drum sounds when the user interacts with the virtual drums in real time.

SKILLS

- Problem Solving
- Computer Vision (Basics)
- Web Development (Basics)
- Continuous Learning

PROGRAMMING LANGUAGES

- HTML,CSS,JS
- C
- C++
- Python(Basics)
